

## UTILITY VEHICLE Mobile Power Solutions

WHICH  
INVERTER  
IS RIGHT  
FOR ME?

?

### FEATURES & BENEFITS

- Technical service and support (Authorized Service Centre for Xantrex Products)
- Full line of CSA and UL 458 certified inverters and inverter/chargers available in modified and pure sine wave
- All battery sizes available in AGM footprints to eliminate acid spillage and gassing
- Multiple additional product lines & accessories
- High quality products with a lower overall cost of ownership

There are two different types of inverters and inverter/chargers: high frequency and transformer-based. High frequency units are not intended to start inductive loads or run constant high-wattage loads - they should be used to run applications such as power tools, electronics, or lights. Transformer-based units can handle heavy motor loads and large in-rushes of current from applications such as compressors, bucket heaters, and pumps. When operating sensitive electronics and charging cordless tools, you should choose a true sine wave option. A modified sine wave can be used for operating most non-variable speed tools, and resistive loads.

### INVERTERS / CHARGERS

TYPE		MODEL/BRAND	PART NUMBER	WAVE FORM	OUTPUT	CHARGER	WARRANTY*
Inverter/Charger	★ Best	Xantrex Freedom SW	815-3012	True Sine	3000	150	24 months
Inverter/Charger	★ Best	Xantrex Freedom SW	815-2012		2000	100	
Inverter/Charger	☆ Better	Xantrex Freedom XC PRO	818-3010		3000	150	
Inverter/Charger	☆ Better	Xantrex Freedom XC PRO	818-2010		2000	100	
Inverter	☆ Better	Xantrex Freedom X	817-3000		3000	N/A	
Inverter	☆ Better	Xantrex Freedom X	817-2000		2000	N/A	

☆ Better

★ Best

- The best inverter for the job is an inverter/charger
- All are CSA and UL 458 certified making them safe for any job
- Equipped with GFCI AC receptacles
- Surge up to 2x their capacity
- 3000 W and 2000 W options are transformer-based and can handle large, constant loads

## BATTERIES

BCI		Part Number	Brand	Volts	RC @ 25A	RC @ 75A	AH @ 20HR	Warranty*
Good ★		Traction Flooded
